

Took the Last Train

David Gates

Took the last train to St. Tropez
Had in mind to dance the night away
Experimented with a cognac high
When in France you give everything a try
Soon the crowd dwindled down to two
Not a soul around but me and you
You just smiled in French and took my hand
Spoke the words I tried my best to understand
You're tellin' me Viens chez moi
Ce soir va jamais terminer
On va rester toujours ensemble
You're tellin' me Come with me
Tonight will last forever
We will stay together always
I love Awoke the next day and found her note
Love ya, goodbye, that's all she wrote
Every night down at the place we met
I wait for her and those sweet words I can't forget
You're tellin' me Viens chez moi
Ce soir va jamais terminer
On va rester toujours ensemble
'Cause I want you to Come with me
Tonight will last forever
We will stay together always
'Cause I need you, baby
Need you, need you bad
And I took the last train to St. Tropez
I took the last train to St. Tropez
I took the last train to St. Tropez
I took the last train to St. Tropez
I took the last train to St. Tropez
I took the last train to St. Tropez
I took the last train to St. Tropez
