Make Your Play

Brother Cane

I just want some reaction, just to get my satisfaction
Things are tough all over, I know what you mean
I guess we'll have to seeYou got to make your play, listen what I say
You got to make your play, don't wait another dayPicture it baby, what'll it be, another sunset fades over me
I'm tired of waitin', I'm tired of wastin' time
I need to see some light, oh yeahYou got to make your play, listen what I say
You got to make your play, don't wait another dayI just need some reaction, just to get my satisfaction, yeah
Things are tough all over, I know what you mean
And things will never changeYou got to make your play, listen what I say
You got to make your play, don't wait another dayDon't wait another day, you've got to make your play
