# Just Another Night

## Icona Pop

(Verse)
Stepping on the cracks in the pavement
Another night of being wasted
Staring at your name
Staring at your name(Verse)
I think you're hanging out somewhere downtown
I wonder who you're dancing with now
Are you doing the same?
Are you doing the same?(Verse)
Close my eyes and we're still naked
But then I see that my clock is changing
It's just another night
On the other side(Chorus)
Oh oh... oh oh oh
It's just another night
On the other side
Oh oh... oh oh oh
It's just another night
On the other side
On the other side(Verse)
Hiding underground with the cool kids
I just choose to not want to choose things
We're living different lives
We're living different lives(Verse)
There's gonna be a way between us
Tearing down our walls of secrets
It's just another night
On the other side(Chorus)
Oh oh... oh oh oh
It's just another night
On the other side
Oh oh... oh oh oh
It's just another night
On the other side
On the other side(Bridge)
Nothing's gonna keep us hostage
I don't want a thing to stop this tonight
Baby oh you think we lost it
Just come to me, yea(Verse)

There's gonna be a way between us
Tearing down our walls of secrets
It's just another night
On the other side
