

Come On

Teyana Taylor

Can't you see you got this hold on me?
..lift me up and never bring me down!
Won't ever lose control, taking nice and slow
I like the way it feels, could this be love (could this be love)?
Someone may be the receipt of destiny
It starts with me and you
And maybe I'll be the melody so sweet, it's never..
Now I wanna be the one you need...
The breath attached to you
So baby, come on come on, come on!

Chorus:

What you do to me?
Living in a fantasy
Is no one in the whole wide world
Baby it's just you and me!
So baby don't you bring my...
And don't you play your card
So baby baby come on, come on, come on!
Oh, baby give it to me (baby give it to me)
And then you like what you see (and then you like what you see)
Oh, baby give it to me (baby give it to me)
And then you like what you see (and then you like what you see)
Oh, baby give it to me (baby give it to me)
And then you like what you see (and then you like what you see)
And baby, baby, come on, come on!
Like sweet morning do, it took one look at you
It was plain to see, you are my destiny!
Shawty, I'm here for you anytime you need me
For real boy, me in your world, believe me
....make a man feel better than a woman
A queen with a crown will be down for whatever
Is a few things it's forever
Your lady, we can make war, make babies
..when I was nothing
You made the Shawty feel like she was something
That's why...
Even when the skies look great, you will rob me on my back
And say baby, it will be OK!
Now that's real to a woman like me, baby

Never ever give you love in a way I keep it tight

Chorus:

What you do to me?

Living in a fantasy

Is no one in the whole wide world

Baby it's just you and me!

So baby don't you bring my...

And don't you play your card

So baby baby come on, come on, come on!

Oh, baby give it to me (baby give it to me)

And then you like what you see (and then you like what you see)

Oh, baby give it to me (baby give it to me)

And then you like what you see (and then you like what you see)

Oh, baby give it to me (baby give it to me)

And then you like what you see (and then you like what you see)

And baby, baby, come on, come on!
