Not Today

Consumed

It's lonely everyday without you
To rub me up the wrong way 'til I bleed
Taking on the whole street
We've had words once before
I think you've told me twice or maybe more
You're never going to like itI don't want anything from you
I've only come just to enjoy the view
Then I'm sneaking out the back way
I think we've heard enough before
Sick of all your bollocks, you're a bore
You've always got something to sayAnd to me I see no way
That you'll ever be any other way
Not today
