

Lay You Down

[Rini](#)

baby, come thru tonight
lay you down
let me slide in you
cus lately, i cant deny
think about you all the time yh (all the time uh)

long day bet you could use some company
lets play i come to you or you can come to me
no i dont mind but i will try midnight
i can come whatever time (whatever time)

Baby come thru tonight
lay you down
let me slide in you
cus lately, i cant deny
think about you all the time yh (all the time uh)

i wanna run my hands through your hair
get it down no i don't play fair
just let me take care of you
or if you want we can just talk
there's so much we could share about love (ohhhhh)
so much we could share about

baby, come thru tonight
lay you down
let me slide in you
cus lately, i cant deny
think about you all the time (all the time uh)

baby, come thru tonight
lay you down
let me slide in you
cus lately, i cant deny
think about you all the time (all the time uh)
