

# Strange Weather

## Odd Squad & Paul Buckley

Guess what time it is

Time to get control of this

Strange, strange, weather

So bring your hurricanes

The forecast is about to change

Strange, strange, weather

Falling from a crooked cloud of things that shouldn't be allowed

Now you've had your fun with this

I'm done with this

Strange, strange, weather

~~~~~

Guess what time it is

Time to get control of this

Strange, strange, weather

This catastrophe

Hasn't seen the last of me

Strange, strange, weather

You thought I'd crumble like a crust

And blow away like all the dust

Now you've had your fun with this

I'm done with this

~~~~~

Oooooooooooooo...

Strange, strange, weather

Oooooooooooooo...

Strange, strange, weather...
