# Yeah

## The Wannadies

We're all sitting on a space ball looking smart
Making babies, breaking hearts
Wasted maybe, we don't care
We are just a bunch of kids but we have a plan
We're a customized breed for the next centuryYeah, yeahHave another one, have more of all
Never-ending fun
Have another one, have more of all
Never-ending fun
Have another one, yeahIf you want to come along, want to have some fun
We know where the night is young
Finger licking, looking hot
We are just a bunch of kids but we're growing up
We're a wealthy young breed, we're the evil seedYeah, yeahHave another one, have more of all
Never-ending fun
Have another one, have more of all
Never-ending fun
Have another one, yeah
