Skinny Puppy

Within Passions [Of the?] Sounds
Against
TwiceNo sinking
Fevers
Fortune
Suffocate
???
All shes ever saidForce of evil heart
???
???the real
Lie, lying, lying there is evil brain
All she ever said
Not leaving
All she ever said
???
[odyssey?]
???
Nothing matters
???
Nothing mattersWishful thinking
Parasitic junkieWraps the noose
Cries the blues
To whoever looks and listensTo a bunch pass spaces turned away
???brain???No word shall shake my faith
Dead poet with the head that rots in the grave
???leave me alone
Towards the sky
Pushes hand up through the earthReaching high
Dead poet
Said once
Once was enough
Time to lie
Time to die
Reaching up towards the sky
As she says once againTurning me alone
So I left it alone
Leave me alone
Leave me alone
???[she sits?]

???
???down the stairsShe walks up the stairs
Towards the door
So thereAll alone
