

Shut Your Mouth

No Angels

Verse 1 Just because I left your crazy ass behind me

Doesn't mean you have to go and do me grimy

Spreading rumors spreading lies is your profession

Like your momma didnt give you no affection You know you did it

But I aint with it

Dont try to spin it

Just admit it and quit, you're finished Chorus : I wanna shout your mouth, for the lies that you spread on me

Burn your house and I hope that youre still asleep

Cut you out, for the bitch that you have to be

Shut your mouth, before you make me shut your mouth Verse 2 You keep on talking trying to ruin my reputation

To see me hurting is your only motivation

Stop pretending all the time that your the victim

But you cant, you need to feed on your addiction You know you did it

But I aint with it

Dont try to spin it

Just admit it and quit, you're finished CHORUS Bridge : I can see that you still want me

Oh, it's a fact that you're not over me

It's your fault that you're lonely

it's just so sad to see

Why don't you let it be You know you did it

But I aint with it

Dont try to spin it

Just admit it and quit, you're finished Why don't you let it be
