

Bam

Miranda Cosgrove

Never thought I'd fall in love
Now I stand corrected
Never thought I'd feel what I feel
Never been so affected Now I know what I know
But right now it seems so subjective
Oh, oh You surprised me, hypnotized me
Found my weakness, then you creeped in, bam
Took my heart then, bam
Oh, you started to make my whole world just explode Bam, my life has changed
Bam, can't concentrate
Bam, I was okay
Until we met that day then Bam, I am obsessed
Bam, can't get nowhere
Bam, ever since we met
I think I know what love is, bam I felt so secure with these walls around me
Boys would take me out
But bring me back where they found me
And there's no harm, no foul
'Cause they never got a chance to know me, yeah You surprised me, hypnotized me
Found my weakness, then you creeped in, bam
Took my heart then bam
Oh, you started to make my whole world just explode Bam, my life has changed
Bam, can't concentrate
Bam, I was okay
Until we met that day then Bam, I am obsessed
Bam, can't get nowhere
Bam, ever since we met
I think I know what love is bam And if I had to walk a million miles
To find your smile I would, you know I would, babe
And if you took a trip to Costa Rica
And told me I need ya I would , I would, I would
Yeah, yeah, yeah Bam, my life has changed
Bam, can't concentrate
Bam, I was okay
Until we met that day then Bam , I am obsessed
Bam, can't get nowhere
Bam, ever since we met
I think I know what love is bam You surprised me, hypnotized me
Found my weakness, then you creeped in, bam

Took my heart then bam
Oh, you started to make my whole world just explodeBam
