

# Star

## Extreme

Star- you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide  
So you're gonna make it  
Chance you're gonna take it  
Tinseltown is calling your name  
Penny in your pocket  
Walking like a prophet  
Fortune teller claiming your fame  
Arriving in style  
On the red carpet mile  
To the left to the right  
Step aside  
As you wave to the crowd  
A voice cries out loud  
Look at you  
You're the new overnight sensation  
Star- you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide  
Love and hate related  
Privacy invaded  
A paparazzi public domain  
Dirty little secret  
  
Guess she couldn't keep it  
At least you made it on the front page  
A tabloid be told  
All that glitters ain't gold  
Not a muse, Drug abuse suicide  
As you're left all alone  
After selling your soul  
In the aisle, smile, ready for your close up

Star - you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide  
Stars in your eyes  
Got your piece of the pie in the sky  
Don't look down as you hang on  
Star - you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide  
Stars in your eyes  
Got your piece of the pie in the sky  
Don't look down as you're hanging on  
Hanging on for your life  
For you're better off dead than alive  
Then they love you forever
