Might Like You Better

Amanda Blank

Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept togetherI might like you better, baby
Let's get together, baby
Wanna hold you, get to know you
Show you what I got in my sweater, babyLove the red hair, the bitch in charge
And if you set a lot of her I make you see stars
Get large, get hard, go fuck, go far
When I touch it, watch it, fuck it, see my money and my II might like you better, baby
Let's get together, baby
Wanna hold you, get to know you
Show you what I got in my sweater, babyLove the red hair, the bitch in charge
And if you set a lot of her I make you see stars
Get large, get hard, go fuck, go far
When I touch it, watch it, fuck it, see my money and my IRide no lie just get inside me
Like you better if you just ride me
Grind me, try me, watch me finish
I like you better if you get up in itI might like you better if we slept together
Might like you better if we slept together
I might like you better if we slept together
Might like you better if we slept
If we slept, if we slept togetherI'm no waitin' on ya, don't take too long
Don't waste my time, just take me home
I got somethin' for you, believe it's sweet
Let's go, I moan like a cat in heatGo, go, go, go let low and blow
Let me give you somethin' to grab and hold
Wanna know how you grow, I catch you though
Cheap, cheap, damn trick, get off the floor'Cause ya baby, I got what ya need
Don't fuck with them chicks, just fuck with me
When were down we can quit it, we don't need to go together
Just let me hit it once and let me hit it once and underI might like you better if we slept together
Might like you better if we slept together
I might like you better if we slept together
Might like you better if we slept
If we slept, if we slept togetherJust take me, just, just take me home
Just take me, just, just take me home
Just take me, just, just take me home
Just take me, just, just take me homeI'm no waitin' on ya, don't take too long

Don't waste my time, just take me home
I got somethin' for you, believe it's sweet
Let's go, I moan like a cat in heatGo, go, go, go let low and blow
Let me give you somethin' to grab and hold
Wanna know how you grow, I catch you though
Cheap, cheap, damn trick, get off the floor'Cause ya baby, I got what ya need
Don't fuck with them chicks, just fuck with me
When were down we can quit it, we don't need to go together
Just let me hit it once and let me hit it once and underI might like you better if we slept together
Might like you better if we slept together
I might like you better if we slept together
Might like you better if we slept
If we slept, if we slept together
