

# Ordinary World

**Katharine McPhee**

The sun can't remember how to shine  
And the colors all have faded into shades of gray  
There's no life in this hollow heart of mine  
Ever since you went away  
Close your eyes and feel me hold you  
Can you lead me through this ordinary world  
Let the sky cry restless rain to wash away the miles between us  
'Cause without you it's just an ordinary world  
If time could find a way to turn around  
I would walk along the stars, till I was back at your door  
Every word, every word is spoken but without a sound  
And I found out what my heart is for  
Close your eyes and feel me hold you  
Can you lead me through this ordinary world  
Let the sky cry restless rain to wash away the miles between us  
'Cause without you it's just an ordinary world  
Hold your breath, here I come, time to roll on mine  
Take back, to your arms till we melt underneath the blinding sun  
Can't remember how to shine  
You're the life in this hollow heart of mine  
Close your eyes and feel me hold you  
Can you lead me through, through this ordinary world  
Let the sky cry restless rain to wash away the miles between us  
'Til love can come redeem us 'cause without you it's just an ordinary world
