

# Stabbed

## Glasvegas

I'm gonna get stabbed  
The Baltic fleet oh are up my arse  
No cavalry could ever save me  
I'm gonna get stabbed  
You don't want to stab me  
You don't want to stab me  
'Cause you don't know my family  
And our capabilities  
You don't want to stab me  
I had my choice, I took my choice  
That I was to stand and fight the fleet boys  
But now I find myself running for my life  
I seen their swords and their knives  
And I changed my mind  
It's time to go  
It's time to run  
Run rabbit run  
Run rabbit run
