

# So Long As We Keep Our Bodies Numb We're Safe

## Midtown

It's what you want  
It's your amphetamine  
Another night you're settling  
For comfort in your bed The more you fill  
The more you're empty  
You're never what you should be Here is why you're sad:  
You're miserable  
When he is close  
So take another drink  
Another drink will numb those senses  
And make the most of flesh and bones  
If it helps you to fall asleep I'm watching you change  
It doesn't have to be this way  
It gets harder everyday  
So you keep numb to feel safe Fuck what you know  
Can't you see it's shallow?  
Every time you swallow  
Do you get a taste of what you've become Regrets, they wake you in the morning  
You shower but you're not clean  
Please just listen You're miserable  
When he is close  
So take another drink  
Another drink will numb those senses  
And make the most of flesh and bones  
If it helps you fall asleep I'm watching you change  
It doesn't have to be this way  
It gets harder everyday  
So you keep numb to feel safe I still remember the days  
When you didn't feel the need to escape  
And every demon you never face  
Is the reason you're not safe Please understand that you've had every chance  
You've had all the time  
All the time in the world  
Please understand that you've had every chance  
You've had all the time  
All the time in the world You don't listen, you don't listen, you don't listen
