

# Circle for a Landing

## Three Dog Night

You've got your head up in the air  
Act like you don't even care  
When I tell ya I'll be there  
Come on, stop what your doin' to me  
Circle for a landing, get your feet back on the ground  
Circle for a landing, it's time to come on down  
Just the thought of losing you is more than I can take  
Circle for a landing before it's too late  
No one loves you like I do  
When I think, I think of you  
I'll have to find somebody new  
If you don't stop what else can I do?  
Circle for a landing, get your feet back on the ground  
Circle for a landing, it's time to come on down, chickie, chickie  
Just the thought of losing you is more than I can take  
Circle for a landing before it's too late  
Used to think I knew you, ha  
Now you're flying much too high  
Now baby, I can see right through ya  
You're afraid that love will make you cry  
Circle for a landing, get your feet back on the ground  
Circle for a landing, it's time to come on down, chickie, chickie  
Just the thought of losing you is more than I can take  
Circle for a landing before it's too late  
Circle for a landing, get your feet back on the ground  
Circle for a landing, it's time to come on down  
Circle for a landing, get your feet back on the ground  
Circle for a landing, it's time to come on down
