Another Cold Day

Caliban

With open arms, I am waiting
With open arms, I see the end
With open arms, I am dying
Dying a mournful deathThe landscape wipes out my tears
It's greyness stings my eyes
Where the hell is the gloom?
What the fuck, I am so doomedStarlight from the sky
Lead my heart and tell me why?
Starlight from the sky
Tell me why?With open arms, I am crying
With open arms, I'm going down
Wind blows my joy away
Help me out of these mournful daysStarlight from the sky
Lead my heart and tell me why?
Starlight from the sky
Tell me why?Too many days, I had no faith
I wish I had someone to blame
Someone to blameStarlight from the sky
Lead my heart and tell me why?
Starlight from the sky
Tell me why? Why?Break down
