

As Ever Beyond

Haji's Kitchen

i wanted to be here
you feel the same way
try your understing ways upon me
now; and then the day will come when you
will try to face me, too
killing all my dreams,
forever and after

i can't believe i ever survived (x4)

now the things that i've replaced
the subtle wantings of
the memories i've saved
are building on my wall
defeating all my peace
i've come to live with
my serenity i waste
forever after

i can't believe i ever survived (x8)

i never wanted you
never wanted me
never wanted any of this (x2)

i cant believe i ever survived (x8)
