

Paths of Glory (2016 Remastered Version)

Faith No More

You squirt out red and turn so yellow
And then you made me kill my own
I'm not afraid
(Coming, coming)
But I'm afraid Blood in your eyes again
Bravery, the face of man
Blood on your mind again
Chivalry, the face of man
Blood in your lies
Enemy, the face of man
Blood in your eyes, again Is this the only path of glory? If so then I won't go alone
Follow the trail
(Running) follow the trail I'm not afraid
But I'm afraid
