

# Strawberry

## Bottlefly

The girl with the rainbow eyes and hair  
Is floating around me, floating around me  
Feel the honey breeze I hear the beautiful  
Love birds singing the love words  
Dancing round the tree, she's singing I'm so free loving everything  
Love is a strawberry  
Shut my eyes cover me with cream  
Love is a strawberry The psychedelic sun burns on the candyfloss  
Clouds flying by now  
She belongs to me and I see  
She wants to excite you, she wants to ignite you  
Dancing round the tree she's singing Chorus repeat
