Every Little Thing U Do

Christopher Williams

Everything u do just turns me onEvery little thing u do
It turns me on, oh yeah
And every little thing you say
It makes me wanna stay another day, another daySexy thing, tell me do
You want to go with me tonight
'Cause in my mind, I see romantic places
Candlelight, champagne on iceIt's the way you move me
It's the way you groove me
It's the way you do me
That keeps me coming homeIt's the way you move me
It's the way you groove me
It's the way you do me
That keeps me coming homeEvery little thing u do
It turns me on, oh yeah
And every little thing you say
It makes me wanna stay another day, another daySugar, it's on my mind
And everyday my heart beats for you
You're my angel, sometimes in disguise
And that's what really does me wiseIt's the way you move me
It's the way you groove me
It's the way you do me
That keeps me coming homeIt's the way you move me
It's the way you groove me
It's the way you do me
That keeps me coming homeEvery little thing u do
It turns me on, oh yeah
And every little thing you say
It makes me wanna stay another day, another dayEvery little thing u do
It turns me on, oh, yeah
And every little thing you say
It makes me wanna stay another day, another dayEvery little thing u do
It turns me on, oh, yeah
And every little thing you say
It makes me wanna stay another day, another dayEvery little thing u do
It turns me on, oh, yeah
And every little thing you say
