Forever Again

Lucas Silveira

Fate don't believe a thing
I can see you come again
I think this is the last time

Heart please don't break so hard
I can feel my delusion coming back to the top
And she can't save me now
She's got different eyes inside
She can't save me now
I forgot to be the prize
And you'd go where nowhere else could go

Fate please don't hurt me anymore
I can see the way the closing door don't swing both ways
And am I better for making mistakes

And if one more begins I'll take the weight

I pray we come together again
Become forever again
Don't pay the price I paid in bones
The weight is coming home forever again

Lake my must go co lake
I was dreaming I'd be back to swim in you someday
Make me better and drown me in your ways
Make me better and wash my sins away hey hey yeahuh

Pray we come together again
Become forever again
Don't pay the price I paid in bones
The weight is coming home forever again

Don't pay the price I paid in bones
The weight is coming home forever again

Forever again...
Forever again...
