

# Wild As Angels

## Levellers

I remember it was warm like it used to be  
Then still a child like I want to be  
With heavy wings I can recall  
The freedom that has flown, that's now unknown  
Sense of random, wild as angels  
This is the life that we have known  
Sense of random, wild as angels  
This is the life that we have known  
The waters of the deep they do recede  
As if decided by global alchemy  
With a heavy heart I can recall  
The freedom that has flown, that's now unknown  
Sense of random, wild as angels  
This is the life that we have known  
Sense of random, wild as angels  
This is the life that we have known  
Please don't ask me what it is I do all day  
You'll get no reply from me in the nicest way  
With a heavy heart I can recall  
The freedom that has flown, that's now unknown  
Now unknown  
Sense of random, wild as angels  
This is the life that we have known  
Sense of random, wild as angels  
This is the life that we have known  
Sense of random, wild as angels  
Sense of random, wild as angels
