

Better Me

Keyshia Cole

Never known nobody else
That knows me even more than
I know myself
And I'm still trying to see
What you see in me You understand
The one I am
And you are the one
You changed me with your love You make me, make me wanna be a better me
You make me wanna get it right
And be the one who deserves to be
The one who is in your life You make me wanna be the one you see
What's beautiful in your eyes
You make me, you make me wanna be a better me You make me feel I'm 10 feet tall
You make me think I can do anything at all
And I'm here to make sure you find
All you need in me Because you give the love
That lifts me up
I swear to you right now
I won't let you down You make me, you make me wanna be a better me
You make me wanna get it right
And be the one who deserves to be
The one who is in your life You make me wanna be the one you see
Who is beautiful in your eyes
You make me, you make me wanna be a better me You keep me strong
You keep me on track
What you give
I wanna give back
Thank God for you
Thank God for you You make me wanna be a better me
You make me wanna get it right
And be the one who deserves to be
The one who is in your life You make me wanna be the one you see
Who is beautiful in your eyes
You, you make me, make me wanna be a better me
Make me wanna be a, make me
Make me wanna be a better me You make me, make me wanna be a
You make me, make me wanna be a
Make me, make me wanna be a
Make me wanna be a better me You make me wanna get it right

You make me wanna be a better me
Make me, make me wanna be a better me, oh
You make me wanna be a better me
You make me wanna get it right
You make me wanna be a better me
