

# Rip Ride

## Venom

Run like hell, in hell  
The deadly race begins  
Cyanide, suicide  
No prayers or foolish whims Tonight we'll fight  
With glory in our veins  
Can't stop us now  
Our evil always will reign The master switch is set  
And we must guard the only key  
Rip ride Satan's speed, our speed  
Incarnate pure alive  
Light up the night  
Were living on a wire We choose you loose  
Nobody body catches fire  
We're free you'll see  
We live by our desires Riding in the air nocturnal  
Living free  
Rip ride  
Rip ride Come on  
Take down  
Come on Run like hell, in hell  
The deadly race begins  
Cyanide, suicide  
No prayers or foolish whims Tonight we'll fight  
With glory in our veins  
Can't stop us now  
Our evil always will reign The master switch is set  
And we must guard the only key  
Rip ride  
Rip ride
