If We Get Out, Let's Make Out

Love Is a Story

I'll try to think on my feet and come up with a better plan
But I don't think
I can stand
So get out the message any way you think you can
If we get out
let's make outAnd if we die
I won't mind 'cause I know I loved youAnd if
we live I won't let you goThe fire's burning bright, but we can burn
brighter
We're better than fire
We're better
And I don't wanna die, but I
wouldn't mind it
I just have to find you
I just have to find you
