Hate

Grinspoon

Woke up to find you weary, left hand was in the red room
My, my, our thoughts were black then
So does it make a difference you?
Always by my side, always by my side
Ghosts in the blue floor, new room controlling students
Hey, hey, the glitter girl gown, so does it make a difference?
You're never going to change, always be the same
And I'll hate you everyday, hate you everyday
Wait for the reasons to change, I know no better
You could do anything but just don't say whatever
You're always by my side, always by my side
And I'll love you everyday, it's never going to change
Woke up to find you weary, left hand was in the red room
My, my, our thoughts were black then
So does it make a difference you?
Always by my side, always by my side
And I'll hate you everyday, hate you everyday
'Cause you're never going to change
Always be the same
It's so good to be in love again
