

# Grass Stains

**Cody Johnson**

That's a pretty little sundress you got on  
And them pink flip flops look brand new  
Got your toenails painted up midnight red  
Spring time tan on the back of your neck, girl look at you  
This white v-neck that I got on  
Is clean as a whistle, bright as a day  
I got new spit shine on my old boots  
Starched these wranglers just for you, yesterday  
We can stay right here and that'd be fine  
Oh but I got somethin' else on my mind  
We can get some grass stains  
Roll around on the fresh cut ground  
We ain't gotta lay a blanket down, and I know a place  
Right over the creek, and through the pines  
We can get a little green where the sun don't shine  
In the middle of the day, girl what do you say  
We get some grass stains  
Come on baby now don't be shy  
You're the prettiest thing that I've ever seen  
But we can keep this midday rendezvous  
Just between me and you, and the washing machine  
If you know what I mean  
We can get some grass stains  
Roll around on the fresh cut ground  
We ain't gotta lay a blanket down, and I know a place  
Right over the creek, and through the pines  
We can get a little green where the sun don't shine  
In the middle of the day, girl what do you say  
We get some grass stains  
Yeah, we can get some grass stains  
Roll around on the fresh cut ground  
We ain't gotta lay a blanket down, and I know a place  
Right over the creek, and through the pins  
We can get a little green where the sun don't shine  
In the middle of the day, girl what do you say  
We get some grass stains  
We can get some grass stains
