

# Be On You (feat. Ne-Yo)

## Flo Rida

[Chorus]

I said excuse me little mama if I may,  
Take this thought, and send it your way  
And if you don't like that, then send it right back

But I just gotta say

I wanna be on you (on you)  
I wanna be on you (on you)

And if you don't like that, then send it right back

But I just gotta say, I just gotta say Hey hey hey sh sh shawty with no limits that's what I need all the time  
I'm with with with it she with it she not sure she put it down

Come get get get get it the business

I hit hit it whose is it

The benz if the windows tinted go on lock it dirty south  
Shawty, lock them grown me, n goose, patron, gin let let me go on in  
Sexy morning ca catch me drawers in

Na na no not never ever witness lil mama

I said ya got me (ot me) call me pappy honest I keep buyers fellas  
B-b-b-bypass shawty house pet got-got that proud cat  
Home I'm poppin that ecstasy, pretty face and all that  
Wh-what I look for this girl is hard core  
The baddest outdoors deserve an encore

The definition of a show [Chorus] Hey I'm feelin you girl wanna get close to you no doubt

My s-s-swagger should tell it more than anything can vouch  
Lil mama you are what's happenin' ghetto fine I'll make you proud  
So stunnalicious I love it let's at least work something out

Miss thang, million dollar gang, coke bottle frame,  
Make my wall of fame, let me know your name, I control the rain  
I can make it better, matter fact I make it wetter,  
Stormy weather with this cheddar all because you hot as ever  
If you may, lately, let me play baby; make my way baby

You don't like it send me back it is okay baby  
You's a keeper, such a diva, give me a fever,

If I could freak ya, give me the word I mean no harm [Chorus] Girl let me touch you like nobody can  
Girl let me show you I'm a gentleman  
I wanna be the one to hold your hand  
I just wanna be, I just wanna be  
Girl let me touch you like nobody can  
I wanna show you I'm a gentleman  
I wanna be the one to hold your hand

I just wanna be, I just wanna be[Chorus: x2]Be on you you you you
