We Cry Out

Warrior Soul

People hear what I say
Child nation she's blown away
Bravery is our distinction
Goodbye rock nation
Goodbye
Become one and you know
We will live through
The show
When our world is dead
Questions rock your head
When all boundaries die, Lord
All men realize
We cry out
Rock culture
We cry out
Rock culture
(And the words of truth go by)
War child
Baby we lived hard
Finally know
How strong we are
Oh, yeah
Dying leaders
You can stay at home
Our new culture
Stands on its own
On our own
Become one and you know
We will live through
The show
When our world is dead
Questions rock your head
When all boundaries die, Lord
All men realize
We cry out
Rock culture
(Can you hear me)
We cry out
Rock culture

(And I know we're out there)
We cry out
Rock culture
We cry out
Your future
We cry out
Rock cult
Rock cult
Rock culture
