# All That's Left

## Big Country Bluegrass

Get your shoes on
Take tour suitcase
Your stereo and all of your cd,s
No more talkin just start walkin
All that left for you to do is leave

(Chours)
All thats left for you to do is leave
You said goodbye a long long time ago
There the door,theres your car
And here,s the keys
All thats left for you to do is leave

Tell your lawyer
Its all over
Forget what ever he has up his sleeve
No more signin no more whinin
All thats left for you to do is leave

Leave the dog here
He dony like you
We,ll go walkin any time we please
Leave the cat here,leave my hat here
All thats lwft to do is leave

Keep the diamond
On your finger
You can take your bitter memories
Leave the dishes,no more kisses
All thats left for you to do is leave

Chours x 2
