Pace

Arne Nordheim

start the count and assume the pace
its all about reality and once you give you what you seemcan you bring it, can u bring it, CAN YOU BRING IT
staint anytime where PACE
i'll take back to the place that you wanna be, take you back to the place that
you wanna be lets get back to the place that you wanna be
bring you back to the placestill thinking that you wanna do stop the old and start the new
let me take a minute now, let me take a minute now to SAVEtell me can you hear me,tell me can you hear me
staint anytime where PACE
i'll take back to the place that you wanna be, take you back to the place that
you wanna be lets get back to the place that you wanna be
bring you back to the placelife's too short for all your time to throw awaytell me can you hear me,tell me can you hear me
staint anytime where PACE
i'll take back to the place that you wanna be, take you back to the place that
you wanna be lets get back to the place that you wanna be
bring you back to the place(x2)
