

# Caught In The Moment

[Kristian Leontiou](#)

Finally awake caught in the moment  
Adrenaline suddenly is rushing over me  
Found you all alone pulled you from the midnight  
As we run away, slide away caught in the moment I can take away your tears  
Hold on to me  
I can take away your fears  
Hold on to me We'll go anywhere  
Here to anywhere  
Whoa, with the dream in your eyes  
Whoa Searching for the time we could stay together  
I wanna feel the ground beneath lead to a slow forever  
Breathing silently walking by the river  
Could it be, could it be caught in the moment I can take away your tears  
Hold on to me  
I can take away your fears  
Hold on to me We'll go anywhere  
Here to anywhere  
Whoa, with the dream in your eyes  
Whoa Finally awake caught in the moment  
Adrenaline suddenly is rushing over me We'll go anywhere  
Here to anywhere  
Whoa, with the dream in your eyes  
Whoa We'll go anywhere  
Here to anywhere  
Whoa, with the dream in your eyes  
Whoa
