Delish

Hollywood Undead

(Funny Man)
Funny Man, call me Randy Savage
Say, oh yeah, I could do some damage
I play the field like a west-coast captain
White C.Ks you know that I'm saggin
Get down 'cause the moon is out
I'm undead, that's without a doubt
See me transform, what's that all about
I'm a freak with some fangs, get some pussy now
Dr Feelgood expedition
Check my brim it's called Funny delicious
Rub my lamp while I grant your wishes
Hood magic for all y'all bitches
(Danny)
This is how we rock it for the ages
We make you f**king famous
I thought I told you it's about to go down
This is how we rock it for the ages
You wonder how we made it
I thought I told you, it's about to go down
(Funny Man)
Fist in my lap with the pistol gripped
Slip back to the cut, no need to trip
Bring back the bong so I can take a hit
Yeah, ease my mind, I need to get lit
You know I'm one of a kind
The ris I roll are supersized
Like oh big Macs without the fries
I need a shake, girl roll inside
Do work let's get you rocking
Once we bump there ain't no stopping
I'm so high like Mary Poppins

Supercalifragi - yo suck my dick!
(Danny)
This is how we rock it for the ages
We make you f**king famous
I thought I told you it's about to go down
This is how we rock it for the ages

You wonder how we made it
I thought I told you, it's about to go down
(Funny Man)
From the top to the bottom
The bottom to the top
It's all good if the party don't stop
From the top to the bottom
The bottom to the top
All y'all bitches better take another shot
(Danny)
We keep it under broken key
Put your hands up now
Light it up and smoke them trees
Blow it out with the crowd
We keep it under broken key
Put your hands up now
Light it up and smoke them trees
It's about to go down
(Danny)
This is how we rock it for the ages
We make you f**king famous
I thought I told you it's about to go down
This is how we rock it for the ages
You wonder how we made it
I thought I told you, it's about to go down
