

Here (Take That, Olly Knights, Gail Paridjanian)

Take That

Up and down
I love a merry-go-round
You went your way, I went my way
Said you'll see me down life's highway Not black or white
As crystal clear as a cloudy night
Traveling in the name of lonely
I was only home when you held me Yeah it's a hell, a hell of a time
To emerge from the shadows
Yeah it's a hell, a hell of a time
To come knocking at my door And it's here,
Where I've come home to.
Right here
Everything I hold on to is here
All the things I keep so dear. Flying home tonight
As far away as a satellite
Keeping your heart in my pocket
Hope to God that I don't drop it Yeah it's a hell, a hell of a time
To emerge from the shadows
Yeah it's a hell, a hell of a time
To come bursting through my door And it's here, where I've come home to
Right here
Everything I hold on to is here
All the things I keep so dear
I hear Oh what a time to come back
Oh what a time to come home
Oh what a time to come back
Oh what a time Up and down,
I love a merry-go-round
You went your way, I went my way
Said you'll see my down life's highway Yeah it's a hell, a hell of a time
To emerge from the shadows
Yeah it's a hell, a hell of a time
To come knocking at my door And it's here,
Where I've come home to
Right here
Everything I hold on to
Is here
All the things I keep so dear I hear Everybody's talking now
Everybody's walking 'round

Everybody's dreaming 'bout
