

Men Of Good Fortune

Joseph Arthur

It's one day morning
You miss yesterday, tomorrow's coming gaain, so fast that's already today
You'll never get put down going into the base be in the New York city
You got a lied and getting poay
You gotta ask that you all ashamed
Get us some beauty, try to stay together on amazing blaze
Always try to porve you're being safe
When they ask you what's your choice, you say I dance
When whatever happend to you, you say I never had a chance
I'm over and block come in
Take a look at me, I'm at ball that won't flow out of sea
And whe I try to compete for a sit
And that edge you found out, the things is change whan the plan
Will be the same, when the chain be
You're never giving in and you say you will win
As soon as you will be here again
And we start to screen, I'm moving my sit
How ever you meet just imagine me
And I cut and know hat you dream about
Is now way you see it, cuz it don't be good about me
Good about me, around you
Good about me around you
Good about me around you
Good about me around you
