

# First of Summer

## URBANDUB

Parked car this night sky  
make city lights shine like diamonds  
our song plays on radio

Were living it up  
make this night ours  
We own the world

I wish this last forever  
Alone with you tonight  
Further in you feels so right

Parked car this night sky  
make city lights shine like diamonds  
our song plays on radio

Were giving it up & just a little more  
this heartfelt leap I surrender  
With arms raised tonight 2x

Anywhere with you 3x

Drive me away  
`Cause the night just feels right  
take me away with you tonight

Anywhere with you

Drive me away  
`Cause the night just feels right  
take me away with you tonight

Anywhere with you

Parked car this night sky 2x  
make city lights shine like diamonds  
our song plays on..... radio
