

Fall to the Ground

Bodyjar

Everyday he plays the game per se
He's got them running around Will they fall to the ground everytime
Right now he's angry, denied
Life inside, he's got something to hide
With a reason so don't wonder why You're past your prime
Know what they've said is what I've done Killed my respect for everyone
Not going back this time
I've come this far Take a gun,. they're only there for fun
If it's right or it's wrong, it's a sign
It must be a movie or song Point the blame, violence in life's the same
And with no reason for that We just make up the facts everytime Make fun the crime
Know what they've said is what I've done
Killed my respect for everyone
I've come this far
Not going back this time
Know what they've said is what I've done
You can't be sure, you never know I've come this far
Not going back this time
Hey! You've got your own opinion Got your own opinion
You decide Got your own opinion
You decide
Hey! You've got your own opinion Everyday he plays the game per se
Life inside, he's got something to hide
Will they fall to the ground everytime
He's got them running around Right now he's angry, denied
With a reason so don't wonder why You're past your prime Know what they've said is what I've done
I've come this far
Killed my respect for everyone
Not going back this time You can't be sure, you never know
Know what they've said is what I've done
I've come this far
Not going back this time Hey! Not going back this time
Hey! Not going back this time
Hey! Not going back this time
