

I Wonder

Cecil Grant

I wonder
My little darling
Where can you be again tonight?
While the moon is shining bright
I wonder
My heart is aching
Why for you can our love be mistaken?
Darling don't you say that this must mean our ending
I wonder

Baby I've been through, I've been through lovers lane
I've been making life just the same
I've been travelling for miles around
Trying to find the one I love
Come on

I wonder
Well well well little baby
Will you think of me everyday?
Though I may be a million miles away
I wonder

I wonder
Well well well little baby
Will you think of me everyday?
Though I may be a million miles away
I wonder
