

Evil Twin (Coachella Festival, California)

Arctic Monkeys

You've never met before
But still she greets you like a long lost rock and roll
She's definitely one of those
Where you go wherever she goes Oh my body and my mind
Both start talking at the exact same time
Try'na think of ways to make her mine
But they're difficult to find It's not what I need
No, your love's not what I need
So don't give it to me And she said: 'Oh, well I knew this will sound cold
But I really have to go
Oh it's not that I'm not free
There's nowhere I need to be
It's just your love's not what I need
So don't give it to me It's not what I need
No, your love's not what I need
So don't give it to me She said: I baby I can never leave you
How can I believe you when you can't believe your luck
No point sticking to the plan when it's going slow It's more a hunger than a thirst
You'll break it out the second time
Before you know about the first
Looks well-equipped to leave you in the lurch
But you'll let her do her worst And it's not hard to tell
It's obvious the other angels faces fell
When she told them that she had to go
Traded her wings and overcoat for something colorful (Tha knows)
