

Right Gone Wrong

Blondfire

Thank god for this addiction
Beauty in double vision
Pouring it's light on me
Where love is superstition
We're lost in premonition
Drawn in by all that we seeCHORUS:
Make promises we can't keep
Change futures every week
Spend love till we're in the deep of it all
Convince the rain to be sun
Pretend we love everyone
Every right gone wrong
Then it's done
Then it's doneVERSE 2:
Welcome to this condition
This limited edition
Wake up it's ecstasy
We are the one and only
Within the lost and lonely
Drawn in by all that we seeCHORUS:
Make promises we can't keep
Change futures every week
Spend love till we're in the deep of it all
Convince the rain to be sun
Pretend we love everyone
Every right gone wrong
Then it's done
Then it's done
