All With You All With YouTaeyeon - All With You English Translation

I am happy that I'm by your side
I dream because I am by your side
I can smile because I am by your side
I pray again that you will be my person
If you see my heart

And feel my true heart
If you see my heart
And find your way to me
I want to give you all of my heart
If you can stay by my side forever
Thank you
For being by my side
Because you're by my side
It's so warm
Because you're by my side
I am able to have strength
Just looking at you
Makes tears come
If you see my heart
And feel my true heart
If you see my heart
And find your way to me
I want to give you all of my heart
If you can stay by my side forever
Even if we get exhausted in this world
Let's always stay by each other's side
Never let go of my hand
I want to use my last love
For you
I would be so happy
If my last destiny was you
I want to give you all of my heart
If you can stay by my side forever
