The Musical Genius

Proper Einstein

[Hook]

Sitting on a cloud sitting on a cloud
I'm not coming down i'm not coming down
this a different sound this a different sound
I'm a genius now i'm a genius now (2x)

[Verse 1]

Yeah, I'm a genius I'm a musical genius
I'm Einstein on an incline wanna come down need a zip-line
Got a swift mind
Run this back like ten times
Metaphors incredible you wonder where I get mine
Ten dimes, I just keep it 100 per cent
Investing in my music so my money is well spent
Take off, might as well take my brakes off
Please don't turn my bass off
Cause everything sounds A1 that's steak sauce
Put that on my plate boss
I don't need any weight loss
Flow with it just roll with it
Not gonna take my skates off
I make music come to life
Make your speaker turn to ice
I can make you realize you're thinking twice you're thinking twice, yeah

[Hook]

Sitting on a cloud sitting on a cloud
I'm not coming down i'm not coming down
this a different sound this a different sound
I'm a genius now i'm a genius now (2x)
