Scream

Trace Adkins

I wake up late at night
Makin' sure, you're still by my side
I try hard not to make a sound
Can't help my heart it just beats so loud
So full of love, I could burst
The way I feel about you girl I wanna just
Scream at the top of my lungs
Tell the whole world how much I love you
Shout it from the highest mountain
Let 'em know I found the girl of my dreams
It's pure electricity girl, you get into me
Like nobody else could
It feels so good I could scream
How can I sleep with you right there
I wanna bury my face in your long blonde hair
Moonlight falls across your skin
I fight the urge building up again
But it's too late I feel the rush
Runnin' through my body girl I wanna just
Scream at the top of my lungs
Tell the whole world how much I love you
Shout it from the highest mountain
Let 'em know I found the girl of my dreams
It's pure electricity girl, you get into me
Like nobody else could
It feels so good I could scream
Oh oh
Oh, you make me wanna scream baby
Scream at the top of my lungs,
Tell the whole world how much I love you
Scream at the top of my lungs
Tell the whole world how much I love you
Shout it from the highest mountain
Let 'em know I found the girl of my dreams
It's pure electricity girl, you get into me
Like nobody else could
It feels so good I could can't help myself I gotta
Here it comes, I'm gonna scream
I'm sorry, I just couldn't help myself

You make me wanna scream baby, yeah
Here it comes baby
I'm gonna scream yeah
You scream too
If you feel the need to, baby
