The Spaceman: Chaos

Don't be acting screwy just have a listen to the remix of lui
Monkey oohing oohwee howah how he did it with the slice and dice cut it
What it sounds like now is what it wasn't til it became the buzzin
in your ear drums humming like everybody come along with lui
Making ghosts of the haters standing in the back booing
Jamming those spaceman tunes on a bus that keeps it moving
Yeah check the Duel Fates line it up with the music
And hell yeah its the crew i'm cool with we do it
And if you didn't know now you know just how i prove it
creating something different but something you can groove with
AND YEAH THEY CALL ME
