You're Gonna Love Me

Chris Young

If you like a man who you can put your trust in You don't have to worry where he's been

Then rest easy

Girl, you're gonna love meAnd if you like to slow dance to ol' Keith Whitley Long Sunday drives out in the country

I'm your cup of tea

Girl, you're gonna love meCome and rest your head against my chest

'Cause I'm the one for you

You don't have to look no more

Your search is throughSo girl if you like a handful of fresh wild flowers

A back rub on a bad day talkin' for hours

I'm good company

Girl you're gonna love meCome and rest your head against my chest

'Cause I'm the one for you

You don't have to look no more

Your search is throughSo girl if you like a big heart that's in this for the long haul

Till we're rockin' on the front porch and they're callin' me papaw

Till the last breath you breathe Girl, you're gonna love me Just try it and see

Girl, you're gonna love me
