

# I Feel

## Jay Ant

[Verse 1]

Yo, sexy ass girl

I ain't gon' lie you got me open  
Ain't nobody here so I was hoping  
That you could bust it wide open

Nah, I'm just playing

Well, unless you gon' do it

Cause that body go stupid

We could do it playing 112 Cupid  
While I'm gripping on your neck

You like this shit

Good dick make you bite your bottom lip

Take you out from [?] bottom list

Put it down like I'm supposed to

I don't quit

Pull your hair, slap your ass

You like it rough

Fell back like you can't get enough

Make you feel so free you gon' wanna be cuffed

Said make you feel so free you gon' wanna be cuffed[Pre-Hook]

I damn near feel like you the one

I feel like this might be a dream

And I feel like you so damn bad

I feel like you might have cream

And I feel like making you feel good

I feel like I don't care who see

I feel like you so damn raw[Hook]

I feel like you deserve it all

Yeah, said I feel like you deserve it all

And I feel like you deserve it all

Said I feel like you deserve it all

Yeah, I feel like you deserve it all[Verse 2]

I do it B-I-G, that's me

I do not fuck for free

So you got lucky, that's on me

I do it B-I-G, that's on me

I do not fuck for free

So see you got lucky

See, I don't even know your ex

But I bet I do it better  
Lick you like a letter, send you off to the moon  
With no return address, but I bet I'll still see you soon  
You'll make your way back the way I'm finna do you  
You'll never forget like your first kiss or a threat  
I'm here to unveil it, kill it, then heal and protect  
Don't that sound crazy? Put you on top so I don't have to work  
Don't that sound lazy?
