

Leaving Ohio

Brandtson

take a swing and we're risking everything it's over when we're afraid to break the rules because it's safe i got a letter saying i'm doing it all wrong i think that i'll write back and find out how it's done take a swing there's got to be more to this than what we hear about take a swing there's got to be more to this than what we're all about and you're wishing your days away do you really want to live your life this way when did the fire die i don't see it in your eyes we all fall down so pick yourself up from the dirt 'cause after all you'd think it'd be the fall but it's the getting up that hurts take my hand and come with me i won't let you down this time there's more than the last time it will all work out
