Don't Cry For Us

Justincase

It's hard to know just what to do in times like these
It's hard to know just what to say
And I'm just sitting here just asking myself why
It's good to know you feel the sameAnd I believe
I wanna be your everything and anything you needDon't cry for us tonight
Don't cry, we'll be all right
If I could, I'd be by your side
Don't cry for usYou know that I'd give anything to watch you sleep
And I can picture you just lyin' there
And we don't need to say the words 'cause they don't mean a thing
You know you're not alone when someone caresAnd I believe
If you are still my anything and everything I needDon't cry for us tonight
Don't cry, we'll be all right
If I could, I'd be by your side
Don't cry for usBuilt of steel we may seem rusted
In times like these we've always won
And trusted in ourselves
Oh in ourselves, in ourselvesDon't cry for us tonight
Don't cry, we'll be all right
If I could, I'd be by your side
Don't cry for usDon't cry for us tonight
Don't cry, we'll be all right
If I could, I'd be by your side
Don't cry for usIt's hard to know just what to do in times like these
It's hard to know just what to say
